

The International Continental Scientific Drilling Program (ICDP) is sponsoring **Scholarships** to allow scientists to attend the

ICDP - Training Course:

Lightening the Darkness: From Borehole Measurements to Earth Models

12. to 16. April 2010
in
Windischeschenbach, Germany

at the former drill site of the German Deep Drilling Project KTB.

This course gives an insight into current science and technology of borehole measurements. Amongst others the lectures discuss the following topics:

-
- Basic Borehole Logging and Interpretation
 - Logging in Oil & Gas Exploration
 - Logging in Scientific Drilling Projects
 - Logging for social relevant applications
 - Downhole Monitoring
 - Hydraulic Investigations
 - Core-Log Integration
 - Information and Data Management
-

This ICDP Training is open for advanced students, PhD students, post-docs from ICDP member countries and recommended for managers and scientists from forthcoming ICDP projects. The scholarships will offset costs of registration, travel, meals, and accommodation.

Applications must be in the form of a single PDF file to the ICDP office at the GFZ Potsdam (knebel@gfz-potsdam.de). They should consist of a short (1-2 page) curriculum vitae, a max. 1-page covering statement justifying the application, and two letters/references from professors / scientists in support of the application.

Deadline: 15th of January 2010

A decision will be made by the ICDP and results communicated by end of January 2010.
