Dear ICDP Fellows, PIs, continental scientific drillers and those who read this and will hopefully become one of the earlier addressees!

Despite the ongoing pandemic situation and related travel restrictions, ICDP is planning a number of small meetings and workshops on land and sea during the remainder of 2021 and into 2022. Both workshops serve to describe core and do outreach and education.

Stay safe, stay healthy, keep calm & drill

Marco - ICDP Executive Director

---

**Upcoming ICDP Workshops**

ICDP will be present on major international meetings including the Fall Meeting of the American Geophysical Union in New Orleans as well as:

- Detailed information about the individual projects, workshops and how to apply can be found on the ICDP website.
- The first ICDP workshop on Afar Dallol Drilling (Afar Workshop) is currently underway in December 2021.
- The workshop on Deep Earth Exploration and Geothermal Research and Paleoenvironmental Research on Lacustrine Sediments. For further details and information please see the next ICDP newsletter.
- The workshop on Drilling Overdeepened Alpine Valleys (DOVE) is currently underway in December 2021.
- The first phase of the Bushveld Complex Drilling Project (BVDP) was launched in April 2021.
- The workshop on Drilling Pliocene Lakes in Western North America (PlioWest) was held June 2021.
- The workshop on Deep Earth Exploration and Geothermal Research and Paleoenvironmental Research on Lacustrine Sediments.
- The workshop on Drilling Overdeepened Alpine Valleys (DOVE) is currently underway in December 2021.
- The first ICDP workshop on Afar Dallol Drilling (Afar Workshop) is currently underway in December 2021.
- The workshop on Deep Earth Exploration and Geothermal Research and Paleoenvironmental Research on Lacustrine Sediments.
