The International Continental Scientific Drilling Program, ICDP invites scientists from upcoming scientific drilling projects to apply for the ICDP Training Course on Continental Scientific Drilling to be held from October 11-16, 2020 at the Geocenter KTB in Windischeschenbach (Germany). This training course will touch upon all relevant aspects of continental scientific drilling, including project planning and management, pre-site surveys, drilling engineering, sample handling and storage, on-site studies, downhole logging, data management, and post-drilling measures. The training course is recommended for master students, doctorate students and post-docs involved in scientific drilling.

Deadline for application is August 7, 2020. Decisions will be communicated by end of August. Preference will be given to applicants involved in ICDP drilling projects, applicants from ICDP member countries, developing countries, and those from countries considering ICDP membership. For the successful candidates, expenses including those for travelling, visa, meals and accommodation will be covered by ICDP. Applications should include a letter of interest, CV, and at least two letters of support.

Please send your application to icdp-outreach@gfz-potsdam.de
